

This webinar series offers a comprehensive exploration of federal and state benefits for individuals with disabilities, highlighting crucial topics such as the differences between SSI and SSDI, work incentives, and benefit counseling resources. Attending these sessions is vital for understanding how to navigate complex benefit systems, achieve economic independence, and maintain the vital supports necessary for sustaining that independence. Additionally, participants will gain valuable insights into managing healthcare programs and asset-building strategies, all while seizing the opportunity to build momentum for creating a coalition that fosters positive changes in the disability community.
