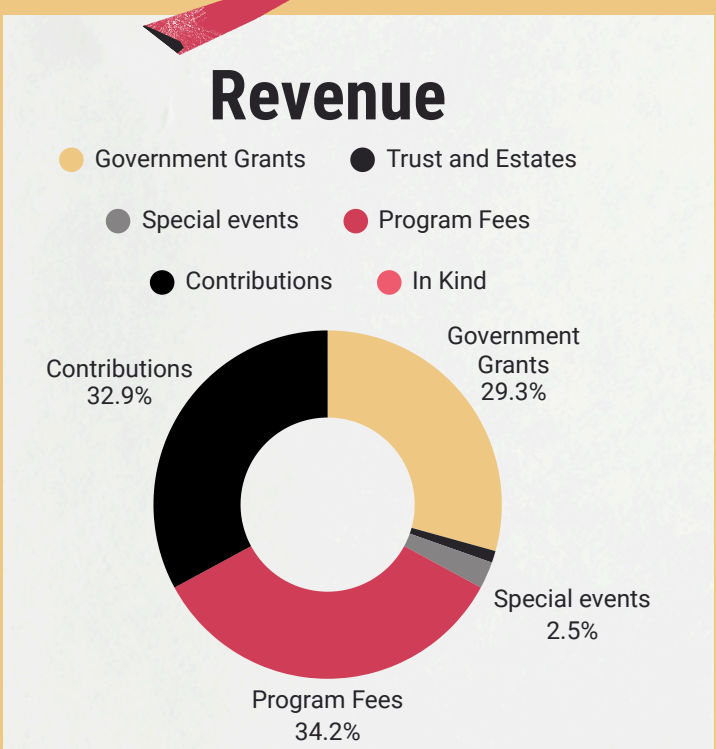
Financial Overview

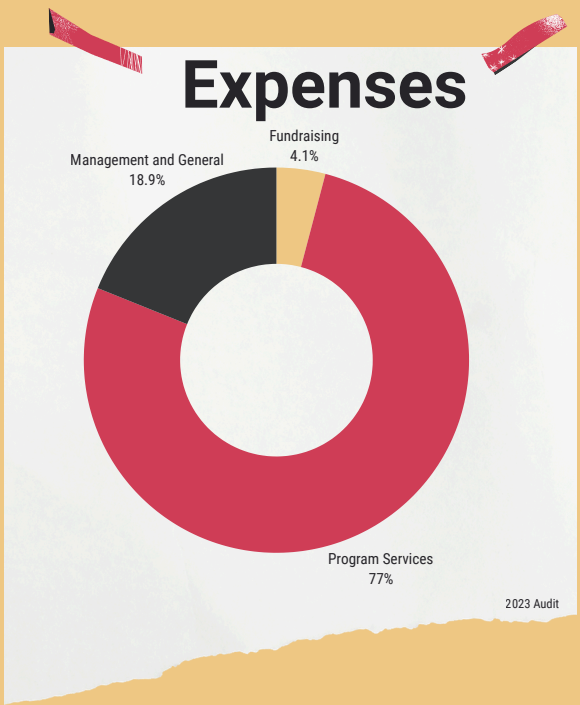
Assuring full inclusion of people with disabilities in all aspects of life. Every day.

Our staff members with disabilities are our experts and have a unique understanding of the issues facing the consumers we serve. We believe that our staff should reflect the complexity of the communities we serve.

62% of our staff serving our consumers have a disability.



Contributions to The League improve the quality of life in Northeast Indiana. When individuals with disabilities are supported, it strengthens the community as a whole. The work we do improves the region's social and economic well being.



Our core values and beliefs are meaningless without our annual planning and action to back them up. At The League, when we value something or someone, we will always respond accordingly. Our budgets and expenses are built on the fact that we believe people with disabilities, and do not ask for proof. We value consumer control, and we hold ourselves accountable to provide quality services.

Our Ultimate Goal?

We don't plan to stop until we achieve full inclusion for people with disabilities in every aspect of community life.
